DETAILED ACTION

1. This office action is in response to the Amendment filed March 17, 2004.

Accordingly, claims 1-21 were cancelled. Claims 22-30 are currently pending in this application.

Allowable Subject Matter

2. Claims 22-30 are allowed.

The following is an examiner's statement of reasons for allowance: none of the prior art of record fairly suggests or shows all of the limitations as claimed. Specifically,

Re claims 22, 25 and 28, none of the prior art of record discloses, in combination with other limitations as claimed, a method for connecting display panel substrates comprising inserting a spacer having a plurality of spacer elements layered together in a mutually separable fashion as recited in claim 22, or a spacer having an additional auxiliary spacer element appended to said spacer as recited in claims 25 and 28, in a waste region between first and second substrates for adjusting the cell gap.

The most relevant references, USPN 5,263,888 of Ishikita et al. (US'888) and USPN 5,307,190 of Wakita et al. (US'190), fail to disclose or suggest a spacer having an additional auxiliary spacer element or a plurality of spacer elements for adjusting the cell gap during manufacturing process. The US'888 only discloses an assembly spacer member 5a, 5b for initially spacing the two substrates as shown in Fig. 3(b). Meanwhile, the US'190 discloses using wedges 61 for regularly spacing the cell gap as shown in Fig. 6.

Art Unit: 2871

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
